1.Create File

```
read -p "Enter filename to create: " file

if [ -f "$file" ]; then
    echo "Error: File already exists!"
else
    touch "$file"
    if [ $? -eq 0 ]; then
        echo "File '$file' created successfully."
    else
        echo "Error creating file."
    fi
fi
```

```
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano create_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ chmod +x create_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ ./create_file.sh
Enter filename to create: file11.sh
File 'file11.sh' created successfully.
```

2. Copy file

```
#!/bin/bash

read -p "Enter filename to copy: " source
read -p "Enter new filename (destination): " dest

if [ -f "$source" ]; then
    cp "$source" "$dest"

    if [ $? -eq 0 ]; then
        echo "File copied successfully."
    else
        echo "Error copying file."
    fi
else
    echo "Error: Source file does not exist."
fi
```

```
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano copy_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ chmod +x copy_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ ./copy_file.sh
Enter filename to copy: abc.txt
Enter new filename (destination): xyz.txt
File copied successfully.
```

3.Move file

```
#!/bin/bash

read -p "Enter filename to move: " source
read -p "Enter new location/name (destination): " dest

if [ -f "$source" ]; then
    if mv "$source" "$dest"; then
        echo "File moved successfully."
    else
        echo "Error moving file."
    fi
else
    echo "Error: Source file does not exist."
fi
```

```
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano move_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano move_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ chmod +x move_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ ./move_file.sh
Enter filename to move: abc.txt
Enter new location/name (destination): xyz.txt
File moved successfully.
```

4.delete file

```
#!/bin/bash

read -p "Enter filename to delete: " file

if [ -f "$file" ]; then
    if rm "$file"; then
        echo "File deleted successfully."
    else
        echo "Error deleting file."
    fi
else
    echo "Error: File does not exist."
fi
```

```
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano move_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ nano delete_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ chmod +x delete_file.sh
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$ ./delete_file.sh
Enter filename to delete: xyz.txt
File deleted successfully.
(base) rvu@rvu-OptiPlex-SFF-7020:~/navya$
```
